The railroad is going to build 12 miles of new track; the construction of the cantonment will start by April 1; the city will have to construct, with government help, a large new school plant, double its sewer capacity and triple its water supply; a huge government-sponsored housing project will soon start; the hosiery mill addition will be used for (1) shell loading, (2) bag loading, or (3) bag making; the size of the camp will be 90,000 acres instead of about 45,000 acres. These are some of the bits of gossip picked up at the latrine. Soldiers will know what that is.

In the meantime the splendid group of men working for the U. S. Engineers and for the Chas. T. Main Company are in high gear, surveying, appraising, mapping and planning. New engineers and draftsmen have been added recently.

So far as we know, the unit now engaged at work here is the pre-planning unit, a unit which will assemble the facts so that, upon a day's notice, land acquisition can begin and contracts can be let.

James Barksdale who lives in the swamp in Quitman county was a business visitor in Grenada Tuesday. He is "Miss" Weet's eldest son, and has not taken a wooden nickel in 25 years, if then.

We should say, in candor and frankness, that what we had to say about the FSA in another part of this issue does not apply to the minor employees of the organization who, like the rest of us common folks, are just carrying out instructions, to the best of our ability, of those who are our superiors. It is the system, inaugurated by communistic-minded people in Washington, which we rail at.

The ubiquitous Mrs. Roosevelt, who should stay at home and darn FDR's socks, look after her grandchildren and get into a knitting class, spent half an hour Sunday night lauding the FSA and its grand (?) principles and its grand (?) accomplishments. Her approval of it further damned it in our eyes.

One prominent merchant stated that the merchants were feeling the effects of the diminished travel to Memphis, Jackson and Greenwood; that the tire shortage was helping them.

As we have repeatedly stated, all the local merchants have to do to recapture their legitimate market is to advertise what they have to sell, keep people informed of substituted articles for those on priority, keep clean and simple stocks and give the best service possible.

Those who have "2-42", or "1-42" on their papers should renew at once. Paper is getting scarce and high.

Greenfield and Horn face an idle week end. Help, help, help.

Selma spent a few moments at the Belmont one day last week.

We are in receipt of a letter from the Grenada County Farm Bureau. The letterhead and the envelope were not printed by Mr. Jones or by the GCW, yet Mr. Jones and the GCW have given freely of our space for this organization. This illustrates what we have often said: many folks want the newspapers to have all the FREE stuff, while the paid stuff is carried elsewhere. Yet we are fool enough to run some free stuff THIS week for this outfit.

We are publishing in this issue a legal notice, calling for an election whether the whole of Grenada county (except the City of Grenada) be incorporated as a Soil Conservation unit. It is our advice that, if you do not know anything about this proposition, to vote against it. There are too damn many communistic schemes being proposed, and most of them are primarily for the purpose of paying fat salaries to men in Jackson. This outfit wanted us to print that notice free, but we refuse to do so. We charge the county for legal notices, the city for legal notices, and even the widow of an impecunious man for legal notices. There are too many schemes already in operation which have virtually displaced local self-government. Let's hold on to the vestige of our remaining local self-government so that, perhaps, we will have seed left anyway after this damp-hoop era has passed. We have a copy of the Mississippi law which authorizes the creation of such districts, and, unless we have something more important to write about, we are going to quote some sections of this law next week or the week after.

Mrs. Dotie Sherman Garner Died Here Friday Night

Mrs. Dotie Sherman Garner, widow of the late Walter Garner, died in her home on First Street in Grenada Friday night, March 6, 1942. She had been in ill health for several months but was critically ill only after experiencing a stroke during the early part of the week.

Mrs. Garner was born, lived her entire life, and died in the home her parents, Mr. and Mrs. H. B. Sherman, built. From early childhood she was a devoted member of the Baptist Church. On April 4, 1894 she and Mr. Walter Garner were married. Her husband preceded her to the grave about twenty-three years ago.

She lived a quiet life, devoting most of her attention to the care of her home and husband and the rearing of her three fine sons, all of whom occupy secure places in life. She was known for her kindness to her neighbors and to people in real distress.

Funeral services were conducted at the family home Sunday afternoon, Rev. Glen Eric Wiley, pastor of the First Baptist Church, and Rev. E. B. Henderson, pastor of the Central Baptist Church, were in charge of the funeral ceremony. Amid a most gorgeous display of beautiful flowers, given in attestation of the friendship which people held for her and for her sons, she was buried beside the grave of her husband in Odd Fellows cemetery.

The active pallbearers were Messrs. Keene Hufington, G. F. Deaton, Joel Batson, Charles Goodwin, Floyd Theismann, and Bill Kennedy, the latter a citizen of Coffeeville.

Surviving her are three sons, George, Sam and Walter Garner, of Grenada; a sister, Mrs. A. P. Guntharp, of Grenada, and one brother, Joseph Sherman, of Moscow, Tennessee.

To the bereaved ones, we extend our deepest sympathy.

Grenadians Kin Auto Victim

The sympathy of the community is extended to Mr. Rogers Burt, also Mr. Roy Burt, of Winona, and Mrs. Dug Allen, of Cleveland, in the death of their sister, Mrs. Ronald Mason, of Nowata, Okla. Mrs. Mason and her two daughters, Ruth Ann, 18, and Janette, 16, were occupants of the family car when the accident occurred. Mrs. Mason was killed outright and the two girls escaped with slight injuries. The accident occurred on Saturday afternoon, March 7, at 5 o'clock.

Mr. and Mrs. Rogers Burt, of Grenada, Mr. and Mrs. Dug Allen, of Cleveland, and Mr. and Mrs. Roy Burt, of Winona, left immediately for Nowata upon being notified of the accident. Mrs. Mason has two uncles, Messrs. Ronald Burt and Walter Burt, who reside at The Plant.

Mr. and Mrs. Burt were expected home on Wednesday evening or Thursday (today).

O. C. D. News

The purpose of the Civilian Defense Volunteer office is first, to recruit men and women volunteers for civilian defense and to recommend them to local defense programs. Second, to strengthen morale through the satisfaction which will come to civilian volunteers, those with much leisure and those with little—by doing useful community work. Its functions, to discover and promote opportunities for volunteers in civilian protection programs. To serve as a clearing house for programs of training by finding out what training is needed and making plans for needed additional courses. The volunteer office has a governing board, composed of club presidents. Its executive committee is composed of the local defense council. It has a staff director and eight young matrons who serve on the staff and man the volunteer office. These young women are giving a large part of each week to serve in the office and keep up-to-date files of classes and volunteers. They are very capable and are giving up many social activities in order to serve their country and nation. They have spent many hours in training and are eligible to wear the handsome civilian defense uniform. If you wish to join any class or volunteer for any service, please do so through your official volunteer office by seeing one of the following young ladies, Mesdames Rogers Burt, assistant staff director, Fisher Ottenburg, Bert Bays, Joel Batson, Charles Dickenson, Ben Towne, Walter V. Davis and David Du-bard.

The office of Civilian Defense is located at City Hall.

The OES is a member of the Council of City Clubs. Omitted last week.

TOWN HALL MEETING

At the meeting of the City Council Monday night, a representative group of citizens attended the meeting and heard Mr. Durkee, Mississippi representative and secretary of USO of the Mississippi organization, speak concerning the USO plans for soldier recreation in towns near which army camps are constructed.

Mr. Durkee was introduced by Rev. Glen E. Wiley in a very few words. Mr. Durkee was acknowledged by the Mayor with a brief admonition to make his address as short as possible. Mr. Durkee graciously thanked the mayor for his hospitality and courtesy, saying that his being in Grenada was not exactly on the hospitality basis. It was really, a trip made to the City of Grenada, at the request of Grenada citizens who earnestly desired that an explanation of the USO plan be brought straight to the citizens from a well informed source.

Mr. Durkee stated that in the event of Grenada having a camp, and should the city decide to cooperate with the War Department in having a USO center, that all Grenada would have to furnish would be the plot of land on which the building is to be placed. The government builds the center and furnishes the center with all equipment.

The National organization of USO would furnish the staff and pay their salaries. The building would be kept in repair by the government and if the building is damaged the organization in charge of the building through that organization, would pay the damages. Mr. Durkee in answer to a question stated that it was his impression that the USO paid the light bills. He further stated that southern men and women would be used on the staff and that only high type ladies and gentlemen, trained for that particular kind of work were employed by the USO.

The USO does more than entertain the soldiers. They are on the job continually to give advice, to listen to some sick boys who want to talk to some one to encourage them and comfort and amuse them. The USO seemingly is the national organization letter equipped to look after boys on their "leave" days from camp.

After Mr. Durkee took his seat, Mr. John Ben Perry, Jr., one of Grenada's school trustees, spoke briefly. Every one knows that our already filled schools will be over-run next year with so many more citizens residing in Grenada.

Mr. E. L. Morrow, Secretary of the Chamber of Commerce, who has only recently, with other citizens, visited Camp Forest at Tullahoma, Tenn., a small town near a large camp, was called on for a talk concerning the trip to this town. His often interrupted talk was most courteously given and his views, from the amount of applause, must have struck a responsive cord in the assembled group of Grenadians who are earnestly striving to anticipate the great demand to be made upon them and their community in the near future.

STATE MEETING
The United Service Organization held an important meeting at the Robert E. Lee Hotel in Jackson, Miss., on Friday March 6th at eleven o'clock. Mrs. J. K. Avenet Grenada County Ch. of USO and Mrs. W. W. Whitaker, Publicity Chairman, attended from Grenada.

Colonel Fitzhugh, Vicksburg, USO State Chairman for 1941 presided. His timely words of wisdom were given serious attention by the group. He stressed the idea that it will take young men to win this war. That young men must assume the gigantic responsibility of war strategy and the active command of the armed forces.

He recalled that Caesar, Alexander the Great Napoleon and our own Robert E. Lee were comparatively young men when they assumed command of armies in great campaigns. The Colonel said that we delude ourself if we suppose that we can win this war with money; stating that wars are not won by money. They are won by the shedding of blood and tears and sweat, that all capable men must go to the aid of the country, regardless of their position in a community. He stressed the idea that the people of America be told the truth about what is happening so that they may appreciate the seriousness of our position; that we encourage new ideas, new conceptions of strategy made possible by the use of tanks and planes and of having young alert men to man them. He spoke with unusual force when he stated that "We cannot win this war working only 40 hours a week." We will likewise lose this war if we depend on the vastness of the two oceans. Japan covers greater distances by far in her ambitious conquest than the vast expanse of the Atlantic.

Colonel Fitzhugh ended his opening address by saying simply, that the accomplishment of worthy objectives is the result of work and fight and tears. Mr. Durkee, of Jackson and New

New Registration Scheduled For Grenada County

The reader is invited to read carefully a legal notice from Circuit Clerk Charlie Worsham calling attention to the new registration of voters of Grenada county.

The registration books and the poll books are in such a mess (the writer, who is an Election Commissioner, can verify that statement), that the board of supervisors ordered a new start on registering.

EVERYBODY who is qualified to vote MUST register. If you registered last week on the OLD books, you must register again on the NEW books.

People who vote in East Ward and those who vote in West Ward must come to the circuit clerk's office to register. Those who vote in the other precincts in the county should read the legal notice, published elsewhere in this issue, to see when Mr. Worsham will be at the several precincts.

E-V-R-Y-B-O-D-Y MUST REGISTER. Each voter must do his own registering, no registering by proxy.

Episcopal Bishop To Preach Here Next Sunday

Bishop Wm. Mercer Green, Bishop of the Diocese of Mississippi will preach at the 11 o'clock service at All Saints Church, Sunday, March 15. This is the bishop's annual visit to the parish and a class will be confirmed. The public is cordially invited to hear this distinguished visitor to the Grenada Church.

Legion Meeting Friday Night

Announcement is made that an important meeting of the American Legion will be held at 8 o'clock Friday night at the hut.

Grenada Bonds Sold On 2 1/2 Basis

\$12,500.00 worth of city bonds, being a part of the issue authorized to add to the city-owned industrial building, were sold Monday night to the First National Bank of Memphis on a 2 1/2 percent basis.

Let's Take Off

By HERBERT B. ALLEN

According to every lesson of ultra-modern warfare, there is only ONE avenue to victory. The sign-post on that avenue to victory is marked INITIATIVE. The laurels of victory go to the boys who "go and get 'em". This is an age of ACTION; and we are tangled up in a web of THOUGHT!

Right now we are on the defensive at a hundred places, wondering where the enemy will strike next. This is the humiliating position to which we proud Anglo-Saxons have been reduced by the Germans and the Japanese.

The slow witted Germans cannot think anything out without devoting years of arduous thought to the subject. The Japanese cannot do any original thinking at all; they are reduced to doing the best imitation of which they are capable. And the Italians have neither wits nor guts; so we shall leave them out of consideration.

And the slow witted Germans, and the witted Japanese, are the nations that have been pushing us around, and have us waiting for the next push. All the while this little game is going on, the Germans and the Japanese have such glaring weaknesses in their defenses that they could be paralyzed in a matter of weeks.

A blind man in the most dense jungle of the Congo basin could see these weaknesses. They are visible to a civilian, but not to a general or an admiral. Putting on the uniform of a general or an admiral these days does something to a guy. His eyes become blurred; his will commences to wilt; his imagination withers; his cunning evaporates; he weakens at the seams; he soon needs a transfer to London—or perhaps to Miami.

Even the generals and the admirals have now heard that this is a machine age, and that this is a machine war: planes, tanks and mobile guns. Therefore we have three primary needs. We must manufacture this mechanized equipment; we must build cargo vessels with which to transport this mechanized equipment to the point where it is to be operated; and we must have gas and oil to maintain it in the field. Building this equipment takes time; building the cargo vessels takes longer; and the life of our tankers appears to be getting very short indeed. But do we have to think only in terms of what we can do in two or three years?

Mr. Nelson states definitely that Mr. Roosevelt's vast munitions program will materialize on schedule. But Mr. Nelson could not possibly know at this early stage that the great program will develop according to plan. There are too many factors involved, over which he does not exercise control, to warrant any such positive statement.

But Mr. Nelson in talking in terms of 1943. Now what about 1942? What about this summer? What about this spring? What about this March? Let Mr. Nelson go ahead with his two year program. But let the army, the navy and the marines commence to fight right now! And not with ten planes in Malaya, a dozen in Burma, a few in Java, and a couple in Timbuctoo.

There are certain places where we can fight right now, and we have the equipment with which to fight in those places. RIGHT NOW! It may be possible to destroy Germany in 1942 if a daring plan is gallantly carried out, by men with audacious courage and indomitable will.

For example, Germany cannot carry on without gas and oil for her vast mechanized army, luftwaffe and navy. She derives her entire supplies of gas and oil from synthetic oil refineries in Germany, and from oil fields in Roumania and occupied Europe. From Roumania her oil supplies are equal only to the amount produced in the state of Ohio.

Those oil refineries in Germany are large industrial installations. Their location is no military secret; and they can be seen with the naked eye. Could a more vital weakness of our enemy be uncovered and destroyed? These vital points are few in number, and they are all relatively short distances from British airdromes. They are all duck soup for our long range bombers. And what are parachute troops for?

Whether this plan is a good one, or whether it is valueless, is for someone else to judge. But one thing I am certain. If the Nazis could reach vital spots in our industrial machine and cripple our industrial effort as easily as it would be possible for us to reach their gas and oil sources, I'd be willing to bet my shirt that they would be moving heaven and hell to get the job done as quickly as possible.

The very heart of Germany's industrial region is at England's front door. The great bridges over the Rhine River, over which pour the total output of Vichy France's munitions, coal and iron ore; railroad yards, barge concentrations on the river, steel mills, aircraft production plants, aluminum works, oil refineries, munitions factories, and chemical industries: all of these are as close to English soil as

Grenada Farms, Inc., Put On Dairy Program

Approximately 145 persons, representing five counties, attended a meeting at the Grenada Farms, Inc., owned by George Frank Kraft Wednesday and heard L. A. Higgins, extension dairy specialist from Mississippi State College, outline the need for increased dairy output in Mississippi and the necessity for stocking better dairy herds. The talk was heard by farmers from Grenada, Yazoo, Tallahatchie, Montgomery, Calhoun and Tishomingo counties and the Grenada County Home Demonstration Club.

Mr. Higgins, of Corinth, a leading dairyman of that section, also made a talk pointing out the part which the pasture plays in getting the maximum production from the dairy herd. He gave some figures which showed how low Mississippi stood in dairy output and stressed the fact that "we must cease to be just cow milkers and become dairymen."

Others on the program were County Agent J. H. Goodby, who introduced Mr. Higgins, after pointing out that Grenada and surrounding counties had a tremendous job on their hands in supplying dairy products in even an army camp is located near here, and Mr. Kraft, who quoted figures from a Michigan farm showing the increased production of a dairy herd which had been given the proper feed.

Preceding the meeting Mr. and Mrs. Kraft, assisted by the home demonstration ladies, served sandwiches and drinks to the visitors.

G. H. S. Baseball Candidates Report For Training

The Grenada High School baseball candidates reported for practice this week under the direction of Coach J. C. Hathorn. Daily sessions will be held until March 24 when the session will open on the local diamond with Oakland furnishing the competition.

Coach Hathorn has a difficult task in replacing such stars as Pitcher, Epp Smith and William Spears; Infielders E. B. Collins and Willard Hudson; and Outfielders Dale Harter and Frank Marascuilo, but he has a letterman for each of the other positions. The Bulldogs will be seeking their third consecutive North Central Mississippi championship in the current campaign.

Lettermen returning for action are Jack Ward, catcher; Shad Hill Thomas, pitcher; Bedford Thompson, first base; Sidney Kettle, shortstop; and Edgar Turnseed, outfielder. Outstanding reserves include Rayce Collins, pitcher; Lewis Barranco, infielder; and Bennie Moore, Billy Shaw and Jack Harrison, infielders.

The schedule for the season is: March 24, Oakland; here; March 27, Oakland; there; March 31, Sardis; here; April 3, Sardis; there; April 7, Charleston; here; April 9, Charleston; there; April 21, Batesville; here; April 24, Batesville; there; April 28, Como; here; May 1, Como; there; May 5, Charleston; here; May 8, Charleston; there. Open dates prevail on April 14 and 17.

AAA Administrator Moved To Clarksdale

Effective Monday of this week, Mr. Robert Bays, who has served as AAA Administrator in Grenada County since Gene Trotman was transferred to Holmes County, occupies a similar position at Clarksdale in Coahoma County.

Mr. John Howard, formerly of Lexington, has replaced Mr. Bays here.

TO GRENADA COUNTY FARM BUREAU MEMBERS

You are urged to attend a "Farm Bureau Rally" at the Grenada Theatre at 9:30 a. m. (War Time) on next Friday morning, March 13. Mr. Owen Cooper of the State Farm Bureau will bring a message that every farmer in Grenada County needs.

The Grenada Theatre will give one of its regular scheduled pictures for your entertainment.

Bring your letter with you as it will be your free ticket for you, your family and any farmer friends you may bring with you.

Yours very truly,
Groce Carver, President,
Grenada County Farm Bureau

GARDEN CLUB MEETING

The Garden Club will meet with Mrs. J. B. Perry, Sr., on next Thursday, March 19 at 3:30.

After our 2nd Section was printed, the place of this meeting was changed from Mrs. Jesse Thomason's home to the Perry home.

Advice To People In Proposed Camp Area

Our advice to the farmers in the area that MAY be embraced in the Grenada camp area is this: go ahead and plant your crop as if there were no camp in prospect. In the first place, there may be no camp located here. If, therefore, you fail to plant a crop, thinking that your land will be included in the camp, and there is no camp, you will be out of luck. On the other hand, if the government takes over your land, you will be paid for the value that you have until that date put into your growing crop.

Now another piece of advice we believe will be helpful. Do not take down your fences. Do not tear down your outbuildings. An appraisal has been made and this appraisal gave full value to these fences and these outbuildings. In case the government buys this land, a final inspection will be made. Anything of value which has been removed between the time the first appraisal was made and the time the final inspection is made will be deducted from the appraised value of your property. Conversely, anything you ADD to the value of your property will be added to the appraised value of your property when the final inspection is made.

In other words, go ahead and "pitch" your crop as if there was no possibility of a camp being located here. You will gain nothing by removing fences. You will neither gain nor lose anything by planting your crop.

To several farmers who have talked to us about this matter we have given the above advice orally. We now, just as sincerely, give it to each and every one who reads this article.

A Suggestion

The Red Cross is the official intermediary between the soldier in the camp and the soldier's folks back home.

If a member of the soldier's family is desperately ill, or dead, precious time is wasted by the soldier's family wiring the circumstances to the soldier's commanding officer asking a furlough; for the commanding officer will turn the case over to the Red Cross in the camp, and the Red Cross in the camp, in turn will wire the Red Cross here in Grenada to check up to verify the seriousness of the case. If time is of value a lot of time will have been lost by this process. This loss of time, gasoline and rubber is particularly great if the soldier's home is remote from Grenada.

Here is our suggestion. Bearing in mind that leaves are granted only for SERIOUS cases and remembering also that the determination of the seriousness and truth of the case rests as a responsibility on the local Red Cross, we suggest that the local Red Cross be contacted FIRST. If Mrs. Smith, mother of Private Smith in Company A, 25th Infantry Regiment at Camp Benning, Ga., is seriously ill, we would suggest Mr. Smith (or some member of Private Smith's family) secure from a reputable physician who is treating Mrs. Smith a certificate of Mrs. Smith's condition, and that this certificate be brought to the Red Cross in Grenada. If the Red Cross here is satisfied from the evidence that the case is of sufficient seriousness to warrant a furlough for Private Smith, it will wire to the camp, and a furlough will probably be granted. If, however, Mr. Smith comes to town, wires direct to Private Smith's commanding officer, the long process outlined in the second paragraph hereof will have to be followed, and this process will consume precious time and will also necessitate a trip by a volunteer Red Cross worker in Grenada to the home of the Smiths for the necessary investigation.

County Road Problems

The average citizen does not know that practically all of the money used in maintaining the country roads comes from two sources, viz: the county's part of the gasoline tax, and the sale of automobile tags. In the past, when times were normal, the money was sufficient to maintain the roads, as well as to build a few miles of new roads each year.

Times are no longer normal. With the stringent restrictions on the sale of new tires and on the recapping or retreading of old tires, the use of cars has been severely restricted, and, as a result, the sale of gasoline has declined very drastically. When you save rubber, you save gasoline. When you save gasoline you reduce the gasoline tax receipts.

The state road bonds issued during the White administration pledged ALL of the gasoline taxes, if ALL of the taxes was necessary. The counties receive what, if anything, is left after the interest on the state road bonds and the maturing bonds are paid. Within the very near future, we predict that NOTHING will be left for the counties. Within 18 months, we predict that the gasoline taxes will be insufficient even to service the state road bonds.

If a person's tires wear out, or if they are about to wear out, he is not going to buy a car tag. Somewhere up the road, darn few private cars will be in operation and, as a consequence, darn few tags will be bought. This will hit the county road funds a real body blow.

The county supervisors of Grenada county, and all other counties in the State, face a real problem in the loss of revenue from gasoline and car tags.

Cost Of War

Up until February 15, the authorized expenditures for war have amounted to 145 billion 400 million dollars.

This amount is over five times the amount of coined gold in the world.

If this amount were in one dollar bills stretched end to end, they would stretch around the world nearly 600 times.

If all of this money were in gold, a road 57 feet wide to the moon could be heavily paved.

If, at the time Christ was on earth, a man possessed 145 billion dollars and LOST \$145,000.00 each and every day since the birth of Christ, he would still be an immensely wealthy man.

City Problems

The experience of Tullahoma, Tennessee, a town of about the size of Grenada, where Camp Forest is located, shows us that an immense outlay must be made in expanding the school facilities, the sanitary facilities, the water facilities, the fire prevention facilities, the police facilities and all other facilities of the City of Grenada, should an army camp be located here.

The continuous stream of bond issues sold by the City of Grenada in the past four years has brought the City of Grenada dangerously close to the legal limit of its borrowing capacity.

Grenada would be extremely unwise to EXHAUST that small remaining store of credit to take care of any TEMPORARY increase in our population, army camp or what not. If Grenada should maintain its present increase in PERMANENT population, our borrowing capacity will be exhausted in a few years for necessary facilities for our PERMANENT residents.

We are among those who want the army camp to come to this area, but we are also among those who do not want Grenada to incur such debts that these debts will ruin an otherwise stable community when the "bubble bursts," as it inevitably will.

The United States government should bear all of the expenses necessary for Grenada's new sewers, new school buildings, extra water supply, extra policemen and extra facilities of ALL kinds.

Should the army camp come—which is at this time purely speculative—the pendulum will swing one way: when the army camp leaves—which is certain—the pendulum will swing back. In the meantime the City of Grenada and its citizens had better keep their feet on solid ground.

It should be remembered that, if the army camp comes, its coming will bring IMMEDIATE prosperity to many citizens. It should also be remembered that its coming will bring no IMMEDIATE increase in revenue to the City of Grenada, except perhaps in an increase in fines. It will require from 18 months to 2 years for increased property values incident to the establishment of an army camp to be sources of revenue to the City of Grenada or to the County of Grenada.

Humiliation Days

(Mrs. W. W. W.)

If our own and our allies' reverses continue we had better ask Congress to establish on the calendar certain days known to all as "Humiliation Days." The Chinese custom of having Humiliation Day could easily be an American custom. We suggest, Remember Pearl Harbor Humiliation Day; Remember the Normandy disaster Humiliation Day; and remember removing bombers from Java because of lack of fighter planes Humiliation Day. Only the Lord knows how greatly the Humiliation Day custom observance may be increased in America. All this reminds us of the negro who was condemned to death, petitioned the governor thus: "Dear Governor, I've condemned to hang 'till I'm dead on Friday, and here it is Tuesday." If we had younger officers maybe we would have less cause for Humiliation Day. If we had less strikes, we would have less cause for Humiliation Days, and if we had more Americans who think of winning the war as patriots instead of winning the war through making high profits and paying high taxes, we would have less cause for Humiliation Day.

Anyway if the nation had Humiliation Day observance, we could be humiliated one day concerning the lost cause and use the other six in hard work preventing any more such occasions.

Silence Gives Consent

There has been a good deal of confusion about how the so-called pension bill became a law. Everybody agrees that there was a record vote in the U. S. Senate and that both of our Senators voted for it. As for the vote in the House, numerous individual Congressmen have claimed to have voted against it. The following is the record:

On page 9511, Column 1, Vol. 87, No. 214, Dec. 1, 1941, Congressional Record, there is the following:

"The Clerk read the bill (H. R. 3487) to amend further the Civil Service Retirement Act, approved May 29, 1940, as amended." (NOTE: this is the amendment that added Congressmen, Senators and others to the pension retirement act.)

"The SPEAKER pro tempore: Is there objection?"

"There was no objection. . . . The Committee amendments were agreed to. The bill as amended was ordered to be engrossed and read a third time, was read a third time and passed. . . ."

There has been so much discussion of this matter that we think the people are entitled to know the truth, as disclosed by The Congressional Record. Do you, the individual believe the CONGRESSIONAL RECORD, or do you believe the fellows who say and write, "I was against it." If a man was against it, the time to record his objection was when the Speaker asked, "Is there objection," and not after the fires of public indignation were burning about his feet.

Silence gives consent. Let the chips fall where they may.

Is This A Record?

There is at least one man in Grenada who knows that income taxes payable to the Federal government have increased.

Our Mr. Greenfield, a printer working for a modest weekly wage, paid 6 cents as income tax for the year 1940, and will pay \$36.00 for the year 1941—just 600 times as much.

We do not believe that there is a man in the United States, who paid any income tax at all for 1940, who now, like our Mr. Greenfield, pays SIX HUNDRED times as much.

Our Mr. Greenfield is not kicking about it or belly-aching about it. He will pay it cheerfully—if he can get the money.

Bible, Tires And Girdles

Believe it or not, Isaiah, the Jewish prophet, predicted several thousand years ago about the tire shortage. If you do not believe it, dust off your Holy Bible and look at Isaiah 3:18.

The fat women have been getting a good deal of comfort from a recent ruling of the government that girdles will not be rationed. If these fat women will read a little further down in the same chapter of Isaiah, they will see that the Holy Bible overrules Donald Nelson.

Speaking Of Pensions

(Mrs. W. W. W.)

There is one pension that the people of America would be glad to pay. That is a pension and honorable discharge for Madame Perkins as Secretary of Labor. I believe many a congressman who got in bad with his constituents back home when the congressmen pension bill was passed could wipe all of that bad feeling away, if as a whole, Congress would appeal to Mr. Roosevelt to ask Madame Perkins to resign and then fill her place in the Cabinet with a really great and progressive man in whom the American public could have confidence.

Seen, Heard and Told By The Editor

According to official latrine gossip, coming from the first latrine on the first row, we will have an army camp under construction within a matter of weeks.

Did we mention that Miss Ruby McLeod has made a contribution that will entitle her to the GCW another year?

Our neighbors, the Dennises, are certainly industrious. Just like the Spains whom they succeeded in the bakery business.

Truckers Favorite Corn, FRENCH MARKET

Our merchants face a golden opportunity, during the rubber shortage, to recapture their legitimate trade. Folks no longer use two dollars worth of irreplaceable rubber and three dollars worth of gas to save two bits on a hat bought in Memphis. But, if they do not know YOU have the hat, they may "order off after" it. Most people prefer to trade at home, if they are acquainted with what the home merchants have.

It does not grieve us at all to pay a bill which was printed by Mr. Jackson or Mr. Jones - the other local printers - but it does grieve hell out of us to pay a bill that was printed by some mail order printer.

Anti Skipper, French Market

The young men working here for the U. S. Engineers and the Chas. T. Maine Co. are not millionaires and, therefore, cannot afford to pay exorbitant prices for rooms and apartments. We hope the Golden Rule will be applied to these men.

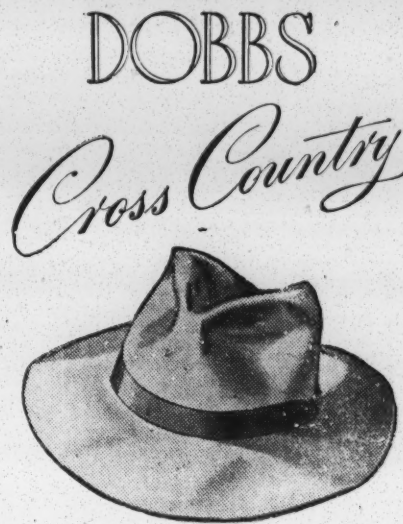

Sebe Clark, my former "secretary", now "secretary" of the Mayor of Oxberry, attended J. P. Court Saturday. There develops between the white landlord and the negro tenant a friendship that no Northern man could ever understand.

Madame Perkins may be a great person, but the American public does not think so. Public demand, through a thoroughly shaken congress, could retire Madame Perkins to private life and give her a pension and every state in the Union would sigh a sigh of relief.

"KNUDSON IS SATISFIED WITH WAR PRODUCTION" is a headline in Monday's paper. Nobody else is.

Aint they sweet.

TWENTIETH CENTURY CLUB

Mrs. Cowles Horton and Mrs. J. C. Hathorn were co-hostesses at the home of Mrs. Horton on Tuesday, March 3, to members of the Twentieth Century Club. This handsome home was decorated with Spring flowers and potted plants, and a delightful St. Patrick motif added a note of festivity and charm to the meeting.

Mrs. J. K. Avert, president, presided and following the business session, a most interesting program was given on Preparations for Defense.

Mrs. H. J. Ray graciously presented Miss Estelle Turner, who gave a wonderful talk on the book, "Our Maginot Line," by Hartley. Miss Turner's review was followed by Mrs. R. W. Sharp, who interestingly presented a book review on Eliot, "Bombs Bursting in Air."

At the conclusion of the program the hostesses served a plate containing refreshments. The beautifully arranged plate held St. Patrick Shamrock sandwiches, sherbet with green cherry and cheese straws.

Non member guests were Mesdames W. F. Robinson, W. F. Martin, Ben Adams and Junius Townes, Sr.

MISS VANDIVER IN PLAY

The Mountain Masqueraders of Blue Mountain College, under the direction of Miss Elizabeth Purser, head of the department of speech arts, will present on Friday evening, March 20, in the Modena Lowrey Berry Auditorium, the play, "We Live Again," by C. M. Seymour.

This is a romantic drama in three acts with a cast of twenty-five characters.

The play possesses a vital and sustaining suspense throughout, punctuated with surprising situations, an atmosphere of enchanting romance, and an unexpected ending.

Miss Sue Vandiver, will play the role of "Kenneth Stanley."

Certified Porto Rica Seed Sweet Potatoes, French Market.

Mr. and Mrs. T. M. Cathey, of Montgomery, Ala., were guests in the home of Mr. and Mrs. C. C. Cathey last week. They also attended the Natchez Pilgrimage the latter part of the week, and were accompanied on this trip by Mr. and Mrs. C. C. Cathey.

Mrs. Porter, mother of Mrs. J. Fred White has returned to her home in Memphis after a visit here. She was accompanied to Memphis by her little granddaughter, Joyce White, who spent the week-end in Memphis, returning home on the bus Sunday.

Mrs. Jimmie Kelly, nee Jamie Provine, of Clarksdale, visited relatives and Mrs. D. M. Taylor the past week-end and through Wednesday of this week.

Mr. Frank Gerard, Grenadian, who formerly lived in Winona, was here this week for the purpose of taking his wife and baby to Birmingham with him. He works at the DuPont plant near Birmingham. His wife and baby have been visiting Mr. Gerard's mother.

SCOBEEY NEWS

Mr. L. B. Carr and family attended the Layman's meeting at the Methodist Church in Grenada Sunday, March 1. They were glad to see their cousin, Hon. Tom Bailey and to hear him speak on Methodist men and Mission of the church. On their arrival home they were greatly surprised to find their son, brother and family, Mr. and Mrs. Grover Carr and son, Mr. G. E. of Chicago, who had arrived about 30 minutes before they arrived home. They surprised everyone with a short visit, they returned home early Wednesday morning. They gave Mrs. Robert Jennings, Mrs. L. B. Carr and Miss Lucile Carr a machineless permanent while they were here.

Mrs. Duke Scarborough and sister, Mrs. Adron Dozan and little daughter, Fatsy, of Warren, Ark., spent couple of days last week with their mothers and grandmothers, Mrs. G. P. Scarborough and Mrs. Kate Dozan and other relatives.

Mr. Gerald Early, of near Water Valley, who has been employed at Memphis spent a few minutes Friday afternoon with his sister, Miss Pauline Early. Mr. Early is expecting to leave for the army soon.

Mrs. Olin Austin, of Memphis, spent a few days last week with her aunts, Miss Ida Dollabate and Mrs. Sallie Ward.

Mr. J. W. Lippencott carried a load of cattle and hogs to Memphis last Wednesday. Mrs. J. E. Johnson went with him to see her brother, Mr. Walter Warren, who has been in bad health over a year. On their return home six miles south of Pope, lights on his truck went out and motor dead, was loaded with cotton seed meal, a car was going north and truck coming south, Mr. Lippencott didn't have time to get his truck off the highway, he jumped out to flag the truck to keep it from hitting his truck. In some way Mr. Lippencott was knocked down, Mrs. Johnson didn't get hurt and called his son, Mr. John Duke Lippencott, of Grenada to come for him. He was rushed to Grenada Hospital, Dr. J. K. Avert made an X-ray but didn't find any broken bones, but badly bruised. He is in bad condition. Hope he will soon be better.

Let's Take Off

(Continued from page 1, Sec. 1)
Jackson, Mississippi, is to Memphis, Tennessee. If German submarines can operate off Galveston, Texas, can our bombers cover 225 miles?

What would happen if the Americans and the British went to work on the German oil supplies, and the industrial areas along the Rhine River, while the Russians are hammering the Nazi armies into putty? What would happen if a daring strategy was carried out with burning initiative this spring?

Why not let Mr. Nelson carry on with his two year campaign, but in the meantime sweep the old women and the paralytics out of the War Department and the General Staff. Let us get action from the army high command before the nation dies of their coma! Let us get someone on the General Staff with some fire and some fight. Mr. Roosevelt has taken Admiral Stark out of the saddle. Let him replace General Marshall also.

The present Chief of Staff has not measured up to the great promise he gave when he was one of Black Jack Pershing's bright young officers. Let the President appoint General Douglas MacArthur quickly. He will get the cowboys out of the General Staff before the Washington spiders have them woven right onto their swivel chairs.

Red blooded officers like General MacArthur have always had their troubles in the U. S. Army. General William Mitchell was a flying officer who knew what it was all about. It meant courtmartial for him. General Stanley Butler of the Marines was another who suffered for his efforts to make the Marines a live force.

These two grand general officers have gone on to the Big Parade. But veterans remember them with affection and admiration. Our armed forces today are a living demonstration of the fact that those outspoken officers were justified in criticizing the services in the national interest.

There must be officers with the intelligence, the initiative, the will, and the courage, to strike a stunning blow at Germany RIGHT NOW! Sweep the old women, the duds, the fossils and the mental invalids out of the War Department! Clean up the General Staff. Blow reveille!

LET'S TAKE OFF!
Next week: How Japan could be paralyzed THIS year!

U. S. O.

(Continued from page 1, Sec. 1)
Orleans, USO State Campaign Representative in Mississippi, spoke most interesting, enlightening the group on the many phases of service performed by the USO. He stated that the united effort of the six national organizations banded together to form the USO had the unity and strength of a hand, each organization representing a finger. The USO produces a most effective and fighting personnel and as they work together in their effort to keep up with expanded demands placed on them by an increase in our armed forces, more funds will be needed for continuance of the work. The best talent, the best leadership, the best service that can be secured will continue to look after the soldiers serving the soldier spiritually, mentally and socially.

The difference in a USO service and Red Cross service is this: The Red Cross is a distress organization. The USO takes care of a man out of distress. Mr. Durkee told how, in the 1941 maneuvers the USO followed the army on their trips to Louisiana, Texas and North Carolina. Professional actors were employed to give performances and this was done through mobile units who followed the army. The 1942 drive for USO funds will begin May 11th. The nation gave 15 million dollars in 1941. The nation is being asked for 32 million in '42.

Dr. Humphrey, President of Mississippi State College was present. After an introduction by Col. Fitzhugh, Mr. Humphrey spoke briefly. He stated that his great college would cooperate with the USO and reminded the group that the urgent need at this time is to arouse the emotions of our people to our common danger. He stated that the roar of the crowd helps win the battles and only an aroused people will win this war.

Mr. Ellis Wright of Jackson was nominated for '42 Chairman of Executive Committee and Drive in the state. He too spoke briefly in acceptance of this responsibility.

Lunch was served and following

lunch the Executive board was named. Mrs. J. K. Avert, Mrs. Tom Bailey, of Meridian, and Miss Lacy, known to many of the Girl Reserves of the state and their mothers, were the three women named on this board of eleven. Mr. Durkee is secretary and Mr. Walter Michel, of Jackson, is vice chairman. The Executive board met on Monday of this week at 2 p. m.

Put our hate for England into moth balls until after the war. We will most certainly lose the war if serious dissention arises between the two powerful English-speaking nations.

The Attorney General has ruled that the purchase by the FSA of huge tracts of land was illegal.

The FSA started out with the theory that every man capable of farming should be given an opportunity to farm, by the U. S. government; it is about to reach the point where this country will be filled with collective farms, patterned after the Russian system.

If there ever was an alphabetical organization whose purpose were perverted, distorted and messed up by communistic minded leaders, it is the FSA.

Talking about peonage in Mexico and serfdom in Russia, the FSA, if permitted to expand its communistic system, will make Mexico and Russia look like free countries.

The termites silently eating away the sills and sleepers of a building are as nothing compared to the FSA which is eating away, much more rapidly, the freedom of millions of American families.

The FSA has never done anything worthwhile that my grandfather, my father and I have not done successfully. That is say "Old nigger, if you will work a crop, I will furnish you mules, tools, seed, a house, land and wood, and will advance you some money to make a crop." My grandfather, my father and I never used government funds illegally to purchase land nor did either of us ever try to set up communistic and collective farms in our respective communities.

The Congress should liquidate the FSA, saving as much from the wreckage as possible.

The Garden Club will meet with Mrs. Jesse Thompson on next Thursday, March 19, at 3:30.

The city and county treasuries cannot stand all of the emergency demands made upon them. The budgets are already fixed. Extraordinary demands are not provided for. No matter what prosperity MAY come to this community, the city treasury and the county treasury will not feel any appreciable effect for at least 18 months.

In spite of denials, forceful and vociferous, from various members of the lower house in Congress that "I'm agin it. I voted agin it", the Congressional Record shows that NOBODY voted for it and NOBODY against it, that it passed by unanimous consent. Some members of Congress are going to have a hell of a time explaining away the written record. We refer to the pension bill.

McPHAIL ASKS CONGRESSMAN FORD SOME PERTINENT QUESTIONS

TO THE PEOPLE OF THE FOURTH CONGRESSIONAL DISTRICT:

I read in all the county papers a statement by Mr. A. L. Ford denying having voted for the "Pensions for Congressmen." I have read everything in the Congressional Record concerning its passage and I fail to find recorded therein, where Mr. Ford had voted or raised a voice against the bill. I did find, on page 532 of the Congressional Record, dated January 21, 1942, where John Rankin and Will Whittington said they were against and would vote against the bill. This was after the bill had passed the Senate and came back to the House for a ratification of some minor changes that had been made by the Senate.

Mr. Ford, if you were so bitterly opposed to this bill, as your statement in February, 1942 to all the County papers would lead us to believe, just why is it that we cannot find in the Congressional Record where you opposed it in December, 1941, as the bill passed the House on December 1, 1941 without a dissenting vote being recorded.

People, I will tell you why he can't show us where he voted against the bill, because the bill passed the House without a roll call, a device familiar to the House to enable members to decide later according to which way the political wind is blowing, whether to say they favored or opposed the bill.

Mr. Ford knows that the bill will provide him with a nice pension the remainder of his life, after he is defeated in the August election of this year. Yet, Mr. Ford tells us that he would not accept this nice pension after his retirement.

Mr. Ford, we know that you expect us to believe that you voted against the bill, and after the bill was passed over your vote, that you would not accept it's provisions of giving you a nice sum of money each year, after you are defeated in next Summer's campaign. We know, therefore that you think we are a very gullible set, but thank God in Heaven we are

not that gullible. We know that if you had been against the bill that we could find your vote and disapproval of the bill recorded in the Congressional Record. Why didn't you tell us that you were against the bill on December 1, 1941 when it passed the House, instead of waiting until February, 1942?

Mr. Ford, there is one more question that I would like to ask you and that is: How did you manage to pay your sister \$3280 a year out of your

of that was allowed to you to employ a secretary when your sister has lived at Hickory Flat, Mississippi all her life and has never been to near Washington, except to visit with you a day or two at the time?

People, when Mr. Ford answers all of these questions, I will come here that I will ask him.

—WITH McPHAIL, WE CAN'T FAIL.
Yours truly,
Pol. Adv. Dr. George T. McPhail.

THE TRUTH SIMPLY TOLD
 Today's popularity of Doan's Pills, after many years of world-wide use, surely must be accepted as evidence of satisfactory use. And favorable public opinion supports that of the able physicians who test the value of Doan's under exacting laboratory conditions. These physicians, too, approve every word of advertising you read, the objective of which is only to recommend Doan's Pills as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes. If more people were aware of how the kidneys must constantly remove waste from the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed. Burning, scanty or too frequent urination sometimes warn of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out. Use Doan's Pills. It is better to rely on a medicine that has won world-wide acclaim than on something less favorably known. Ask your neighbor!

DOAN'S PILLS

Slacks Ensemble With Skirt Is Ideal for Defense Work

By **CHERIE NICHOLAS**

TIME was when slacks were regarded as an amusing and passing whim of fashion, especially by women who prided themselves on being conservative in dress. Nevertheless, slacks persisted in the mode, with the result that today fashion-wise leaders declare that slacks are headed for their greatest success season. Of course there's a reason. And that reason is that they are undeniably practical.

Women will need slacks for the busy life they must perform lead in the days to come. You will be needing them for doing your bit in civilian defense, for work on the farm, for bicycling, for hours of recreation and rest. Yes, there's no doubt about it. Slacks have become a positive "must have."

In many jobs where women are taking the place of men, in field or factory, the call grows more urgent each day for clothing which hasn't any loose gewgaws or extra fullness to catch in machinery. Wide slacks are no more practical than skirts. Utility slacks must be narrow at the bottom or caught in at the ankles after the manner of the workaday outfit pictured to the left in the above illustration. This surf blue denim coverall is one of the types favored for farm or defense factory work. Its surprise closing, tie-belt that eliminates the use of any sort of metal fastening, huge pockets and buttons for holding trousers in at the ankle are required utilitarian features. A bright peasant square tied about the head adds a pleasingly feminine touch.

There is a time for work and a time for play. When work is done, slip into immaculate white slacks

like those shown in the center of the above picture. Slacks are simply constructed and easy to make as these give emphasis to the growing sentiment among women that it is wise to sew and to save these days. This one-piece slacks suit is cut from a very simple pattern, and it is made of serg-a-hed, a wonder fabric of all-rayon weave that looks exactly like an expensive French serge. It washes and irons beautifully and can be had in white or a range of exquisite colors.

Search the fashion centers over, and you won't find a more complete many-purpose slacks outfit than the nicely tailored four-piece suit shown to the right in the above illustration. This foursome consists of slacks, coat, skirt and sleeveless jacket fashioned of black and white check rayon weave. Checks, by the way, are the rage this season for jackets and slacks suits. You'll be seeing and hearing about checked fabrics wherever you go. This stunning slacks ensemble is purposefully designed to take care of versatile costume needs for the woman who leads a busy life. You can mix and match the various pieces to your heart's content, and it is more than a work suit. Whether you travel by train or by air, or motor to your destination, or dash about town to keep appointments, this smart many-piece suit can be manipulated to tune perfectly to the occasion.

If it's a bright accent you are seeking for your slacks, you'll find plenty of it in the new blouses that are made of the splashiest big colorful prints imaginable. When a yen for the utterly feminine besets you, wear a dainty white frilly and sheer blouse. Make sure that it is styled with a foamy white jabot, for they are wonderfully smart.

(Released by Western Newspaper Union.)

'Menu' Buttons

Buttons are more decorative than ever in the spring fashion picture. Treated, for the most part, as trimming or accessory accents, they are made to achieve striking effects. Use them on a jacket or a dress and watch the reaction of admiring friends. Among the stunning buttons designed this season, two of the most thrilling types are the ceramic roses used to trim the afternoon dress, shown at the top in the above picture, and "menu" buttons like the huge "turkey on a plate" buttons that dramatize the tailored jacket illustrated below. Remember, many a last year's dress or suit can be made to look new with this year's buttons. A thrifty way of achieving the height of fashion!

Lace Trims Dress and

Even Serves as Buttons

Frothy white lingerie touches will make their appearance as separate collars and jabots and various frills. There is also a new movement to make snowy lace accents look as if they were actually a part of the dress. A newly arrived black crepe frock has bell sleeves with a section cut out, then filled in with lace insets that give the impression of lace undersleeves.

New, too, are the lace rosettes used like buttons. Many hats are lace-trimmed and there is promise of a tie-up between lingerie hats and lingerie neckwear.

Calico Skirts Printed In Gay Colored Squares

Girls are going to have lots of fun wearing the new skirts made of quaint calico printed to look like big squares of different colors and designs. A yellow calico skirt can be worn with a bright red blouse. Or, try a green skirt with an inset of yellow to match the yellow in a tri-color blouse. For a dainty effect, wear a blouse of sheerest white lingerie with your calico skirt.

Drawstring

Very new and smart are straight coats, jackets, and even sweaters, that are brought snug into the waistline with a drawstring. It is a technique that is being applied to cloth and to suitings as well as to rayon wash materials.

Perky Sailor

Cunning are the new little sailors arriving for early spring wear. They are worn tilted provocatively over the eyes. In many instances the veil and the trimming is quite ornate.

PATTERNS

SEWING CIRCLE

1502-B
 WHEN you wear this charming frock your best friends will query you, "my aren't you getting slim?"—for your waistline will just melt away under the slenderizing influence of this smartly shaped girdle. It is the feature of Pattern No. 1502-B which makes it one every size 12 to 40 should want!

The frock has youth and femininity, too, expressed in an attractive open neckline, a full shapely bodice, which fits smoothly over the bustline, a skirt which flares to a wide hem and perky, puffed sleeves. The big bow which ties the girdle firmly in place gives special interest to the back view of this frock!

Barbara Bell Pattern No. 1502-B is designed for sizes 12, 14, 16, 18, 20 and 40. Corresponding bust measurements: 30, 32, 34, 36, 38 and 40. Size 14 (32) requires 3 1/2 yards 36-inch material, 2 1/2 yards casing. Send your order to:

EDITORIAL

You read in the papers every day that men are turned down for military service because of physical defects such as bad teeth, underweight, and had eyesight. What if everyone had these defects? Wouldn't we have a line armed force to lick the enemy? You say "Well we can't help if we have bad eyes." Well perhaps you are right but maybe you can help having bad teeth and being underweight.

The boys in our high school are future America. Whether they are sound and fit for hard tasks is perhaps what will destroy or save our nation in the future. It is their duty to build up their bodies and to have their defective teeth repaired.

High school athletics offer much advantage in this line. A majority of the boys won't go out for football and basketball just because they say that they can't make the team. That's not being a good sport. The exercise and the training diet would help build strong bodies. Boys and girls too, let all start being more health-minded and let's not be a physical "washout."

DEFENSE STAMP NEWS

Leon Provine took several strips of wood and built a Defense Stamp booth in the main hall of the GHS building. It's strictly a master piece and a genuine work of art now since the girls in the honor society have decorated it with red, white and blue paper. Go by and look at this booth and pause a while to buy a stamp!

Let our motto be "A Stamp a Day—Keeps the Japs Away!"

LITERARY FIELD MEET

Literary Field Meet will be here in Grenada March 21st. All the wits, sages, etc. of all the surrounding towns will come forth and deliver their knowledge. Our school has always rated first in this district and with the bunch of students representing us this year we think and hope that there's gonna be victory for our GHS. The GHS students representing us will be:

Eng. I—Willie Campbell.
Eng. II—Ruth Lee Morrow.
Eng. III—Lucy Moss.
Eng. IV—Lou Cullen.
General Science—undecided.
Biology—Mary Elizabeth Cowan.
Physics—Leon Provine.
Algebra I—undecided.
Algebra II—Ralph Blaylock.

FIRST AIDERS

First Aid classes started this week for the High School Juniors and Seniors. Miss Haynes, who really ought to be very weary from teaching math all day, is holding forth with classes from four to six two afternoons a week. The Bulldog staff as well as all the students think that Miss Haynes is just the best when it comes to helping others. The girls taking first aid are: Mary Lili Horton, Jackie Lane, Lili York, Billie Saunders, Lou Aven, Mary Nell Rayburn, Mary Moore Juchheim, Billie Guy Thomas, Hazel Turner, Lucy Moss, Anne Duncan, Anne Odum, Frances Herring, Bernice Jones, Marguerite Stanley, Carolyn Whitaker, and Rose Marascello.

THINGS TO REMEMBER:

1. The Literary Field Meet March 21st.
2. Pearl Harbor.
3. To buy stamps and bonds.
4. Music festival the first week in April.
5. To boost the Orchestra.
6. To try to get an annual.
7. (Junior and Seniors only) to have a bigger and better Junior-Senior banquet.
8. Give your "Victory" books.
9. Bring all your old Postage Stamps.

VOICE OF THE STUDENTS

The voice of the students speak. Let's listen in. This is what they're saying:

"We want the orchestra to be invited to play again at the chapel program."

"We want to have an annual! Not one that is expensive, but just a small one with all students pictures in it."

and a few high-lights of the school."

The voice of the students turns serious now as they make a confession of how most of them feel about our world which is changing so rapidly.

"We want to bear our responsibility in this national crisis. Our girls are knitting; our girls are taking first aid; our boys are entering defense schools; our girls are collecting "victory" books, our boys gather waste paper; and we all buy defense stamps and bonds. We want to do our part and we are going to do it, but we want to go on living as normally as possible. As we all know, we are only young once. Things have happened so quickly that it is hard for us to jump out of a carefree life to one of always being conscious of war and national emergencies. We don't mean to be selfish when we say we want our life to go on as undisturbed as possible. We are torn between two fires. On one side we're told to go on living a normal life when we're in high school and on the other side we're told over and over of our heavy responsibility. Is it selfish and unkind when we say we want to have our youth not too full of heavy responsibility, so that we all can have our youth as natural as the times can permit?"

This is the voice of the students signing off. We'll be listening next week.

Just call John Prather "Long John Silver" Prather.

CAMP'S PERSONALITY

Name: Miss Elizabeth Waller
Age: Just a little above draft age
Address: Main Street
Nickname: Libba
Description:
eyes—hazel
hair—brown
height—kinda' tall
weight—about 120
general description—cute

Favorites:
Food—Turnip greens (she says she has them every day)
Song—"I hate to get up in the Morning"
Saying—"I'm so mad I could break your neck"—(which is always followed by a grin)
Friend—Miss Tyler
Miss Waller is new at our school this year '41-42. She has the respect and admiration of all the students. All of her pupils think that she is "tops" and consider her just "one of us."

DIRT

Jean Scott Bart, spent the week-end here. She was spired to the movie show Saturday night by Johnny Mitchell, accompanied by Margaret and Larry.

Roselyn Threadgill and Susie Aldrich, of Greenwood, visited the Allans Sunday. Lynn must have been in dog's Heaven.

During the singing of a certain song in chapel we heard a certain person say "Will you have this walth with me?"

We see that Buddie is wearing Polly's senior ring. Congratulations, sophomore!

Dot Talbert and Camie Lou have been speechless here lately with some kind of throat ailment. Dot's was caused by too much Saturday picnicing.

Sneak! Sneak! There goes one of those shoes again!

Lou Cullen is gonna spend her birthday (March 21st) in the hall at GHS writing Brayan's poem and determining whether a word is a secondary compliment or a passive verb. There ought to be a law against it!

We have been barking up the wrong tree again. We've been waiting to get a coke machine for the school. Since that seems more impossible since the war, we'll settle for a spinach juice machine. Just something to drink between classes.

Leon, Rogers and Benton took in a dance at Ole Miss Friday night. "Brother" John must have invited them up.

Speaking of Ole Miss, Lou Aven's "current" was home over the week-end and was seen celebrating at the show Saturday night.

Congratulations to one friend and former schoolmate, Bobbie Weir, who's gotten his appointment to Annapolis.

Libba Horton and Jackie Lane have been seen around the bright lights with two certain engineers.

Lil and Jeanie said they had a good time together at Jean's house Friday night.

Billy Foster has been in his old town over the week-end giving his old friends a thrill.

We are glad to see our reporter, Berta Allen, back in school. By the way, Berta is it Johnny or Ernest for you?

Polly, Mary Moore, Mary Nell and Billie Guy now known as the "house-keeping quartet," spent the week-end in a trailer out at Thomas' this week-end. One guess is that they're just getting a little domestic training.

NOTICE TO VOTERS OF GRENADA COUNTY OF NEW REGISTRATION

Pursuant to an order of the Board of Supervisors of Grenada County at its February 1942 meeting.

"Ordered by the Board that the Circuit Clerk and County Registrar be and he is hereby authorized to purchase new registration and poll books for the various voting precincts of Grenada County.
